May 30, 2011

**Request for Quotation for the Manufacture, Galvanizing, Delivery to Site,  
Offloading and Warranty for Structural Steel Members/Components  
Strum Engineering Associates Ltd. Specification No. 023-478-6-11  
In-Stream Tidal Power Generating Plant - Fundy Ocean Research Center for Energy**

Strum Engineering Associates Ltd., on behalf of Fundy Ocean Research Center for Energy, is soliciting quotations for the manufacture, galvanizing, delivery to site, offloading and warranty for structural steel members/components based on the enclosed Technical Specification No. 023-478-6-11.

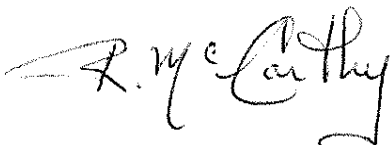

To meet the project schedule, your quotation must be received by Strum Engineering Associates Ltd. before 3:00 pm on 8 June 2011. Refer to Section 3.1 of the specification for contact information.

Your quotation should include a completed copy of Schedule 1 through Schedule 9, as well as detailed technical information describing the material and galvanizing process being proposed. Quotations will be evaluated on both their technical and financial offerings.

If you have any questions or require additional drawing sets, please do not hesitate to contact our office at your convenience.

Yours truly,

**STRUM ENGINEERING ASSOCIATES LTD.**
