

023-478

Dear Sir/Madam:

**Request for Quotation - Construction of TISEC Collector Circuits Development  
Strum Engineering Associates Ltd. Contract No. 023-478-3-11  
In-Stream Tidal Power Generating Plant - Fundy Ocean Research Centre for Energy**

Strum Engineering Associates Ltd., on behalf of Fundy Ocean Research Centre for Energy, is soliciting quotations (Stipulated Price Contract) for the provision of civil and electrical construction services related to the Tidal In-Stream Energy Converter (TISEC) Collector Circuits Development based on the enclosed Detailed Scope of Work Contract No. 023-478-3-11 and referenced drawings.

To meet the project schedule, your quotation must be received by Strum Engineering Associates Ltd. before 3:00 pm on 4 March 2011. Ensure that your quotation includes the following information:

- .1 A completed copy of the Schedule of Prices, Page 28 of the Detailed Scope of Work document.
- .2 A List of proposed Sub-Contractors, Page 29 of the Detailed Scope of Work document.
- .3 A Letter of Good Standing from the Nova Scotia Construction Safety Association (NSCSA).
- .4 A Letter of Good Standing from the Workers' Compensation Board of Nova Scotia.
- .5 A short list of projects of a similar nature, carried out over the past three years, for which your company has been the General Contractor.

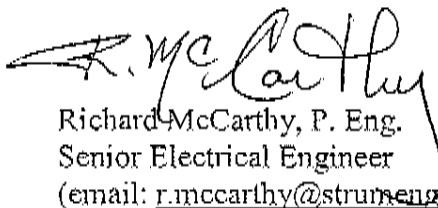

A site meeting will be arranged for Monday, 28 February 2011. Further details will follow regarding the meeting location.

A Bid Bond will not be required. Quotations will be evaluated on both the experience of the firm and the financial offering.

If you have any questions or require additional information, please do not hesitate to contact our office at your convenience.

Yours truly,

**STRUM ENGINEERING ASSOCIATES LTD.**
